

PREFACE

The “Statistical Abstract of Mizoram - 2009”, which is the second in it’s series has been brought out by the Director of Economics & Statistics (DES) Mizoram.

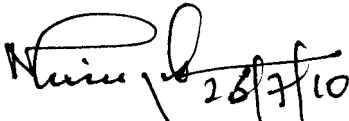

This issue contains time series official statistics generally for the past nine years upto the latest available year 2008-09 for state aggregates relating to various sectors of the economy to present the trends of socio-economic development in Mizoram and to facilitate comparative and analytical study. As far as practicable, the state aggregates are followed by district wise data for the latest year so as to reflect the comparative development scenario amongst the district.

I would like to express my thanks to all the officers and staff of Technical Section who were the architects in bringing out this publication.

This Directorate gratefully acknowledge the kind co-operation extended by the different Departments of the Central and State governments, Public undertakings and NGO’s in making the requisite data available for incorporation in this publication.

We fervently hope that the data in this publication would serve as an useful source of information to administrators, policy makers, planners and researches. It is also hoped that it will be a useful reference to all readers and users having interest in the state’s economy.

Suggestions for further improvement in terms of quality, coverage...etc....for the next publication would be highly appreciated.

* Only 43 ha is maintained by the deptt. due to paucity of fund and for encouraging more plantation in private farms.

** Only 6 ha departmental plantation is continued and the remaining 37 ha is left to be demonstrated by assisted new private planters.

*** Some tea plantation had been laken up for town extension, thus, the area under tea plantation had been squized to 7 ha only.

* No. of habitations has decreased to 807 as revised by Govt. of India under Comprehensive Action Plan (CAP'99)

** New Habitation Survey conducted in 2003 has again revised the total no. of habitations to 777.

*** The actual no. of Not covered / partially covered habitations have grown up due to slippage of status of fully covered habitations due to rapid increase in population, drying up of water sources, natural calamity etc.during the year 2006-07 to 2008-09.
